

弊社社員の新型コロナウイルス感染および
ワクチン未接種社員の自宅待機実施に関するご報告

今月中旬、体調不良で自宅待機中の社員について、新型コロナウイルス陽性が確認されました。保健所に確認させていただいたところ、社員は常にマスクを着用していたことから濃厚接触者はいない旨のご指導をいただきましたが、念のため、発症前3日間にトレーニングを担当させていただきました会員様にはご連絡を差し上げ、皆様の体調に変化がないこと等を確認させていただきました。

その後、感染対策とワクチン接種の実施について社員に徹底する中、新たに陽性者が確認されたため保健所のご指導に基づき同様の対応をさせていただきましたが、いずれもワクチン接種待ちの社員であったことを踏まえ、会員の皆様の安全のため、ワクチン未接種の社員については全員自宅待機とさせていただくことをこの度決定致しました。

会員の皆様にはご迷惑をおかけすることとなり誠に申し訳ございません。消毒の徹底、定期的な PCR 検査の実施に加え、一日も早い未接種者へのワクチン接種を実施し、安全なトレーニング環境を提供して参ります。

何卒ご理解のほど、よろしくお願い申し上げます。

Regard in our employee was infected with new coronavirus infection and
Report on the implementation of waiting at home for unvaccinated employees

In the middle of this month, positive result for COVID-19 was confirmed for employees who were waiting at home due to poor physical condition. When we checked with the health center, we were instructed that there were no close contacts because the employees always wore masks. To be on the safe side, we contacted the members who have received personal training from the relevant employee during the 3 days before the onset and confirmed that there was no change in their physical condition.

After that, while thoroughly implementing infection control and vaccination among employees, new positive results were confirmed, so we took the same measures based on the guidance of the health center, but all of them were employees waiting for vaccination. Based on this, for the safety of all members, we have decided that all unvaccinated employees will be on standby at home.

We sincerely apologize for the inconvenience caused to our members. In addition to thorough disinfection and regular PCR tests, we will provide vaccinations to unvaccinated people as soon as possible to provide a safe training environment.

We appreciate for your understanding.
